CE

Converge® Multi-Cook Ovens combine the flexibility of a multi-cook oven, power of Structured Air Technology®, and the versatility of combi cooking in each oven chamber. Controlled humidity to execute an all-day menu and boost production capacity. Increase production capacity without increasing labor. Two or three independent ovens in one give you the freedom to steam, air fry, bake, grill and more at the same time without flavor transfer—all in a ventless, self-cleaning design.

Control the temperature, fan speed, humidity level and cook time in each individual oven chamber.

Exclusive Structured Air Technology® delivers focused heat for faster, more even cooking and consistent, high-quality results.

Reduce labor by eliminating extra steps in food production and the need to watch and rotate pans.

An advanced control—designed intentionally simple—features an intuitive, user-friendly interface and programmable recipes to ensure consistency with each cook.

ChefLinc™, cloud-based remote oven management software, streamlines processes and maximizes profits with data-driven insights (deluxe control only).

ISO 9001:2015-certified.

### Water Quality Standards

It is the sole responsibility of the owner/operator/purchaser of this equipment to verify that the incoming water supply is comprehensively tested and, if required, a means of "water treatment" provided that would meet compliance requirements with the published water quality standards shown below. Non-compliance with these minimum standards will potentially damage this equipment and/or components and void the original equipment manufacturer's warranty. Alto-Shaam recommends using the Alto-Shaam Reverse Osmosis System to properly treat your water.

Inlet Water Requirements		
Contaminant	Treated Water	Untreated Water
Free Chlorine	Less than 0.1 ppm (mg/L)	Less than 0.1 ppm (mg/L)
Hardness	30-70 ppm	30-70 ppm
